

David Kvale, an EECS Graduate Student here at UT College of Engineering, recently received the "Superior Presentation Award" in the Sigma Xi International Research Conference held in Houston, TX during Nov. 12-15, 2009. His presentation entitled "A Neural Network Based Approach to Estimate the Electric Field from a Source within a Perforated Enclosure" was well-attended and received excellent remarks from all the Judges. This award includes a certificate, medallion, and an invitation to join the Sigma Xi (The Scientific Research Honor Society) as an associate member. David is working with **Dr. Vijay Devabhaktuni and Dr. Zulfiqar Khan**.
