

**Before** MICHAEL GRAVES designed cool buildings and hot teakettles,

**before** NORMAN WOODLAND invented the bar code,

**before** HENRY JUSZKIEWICZ signed on for his CEO gig at Gibson Guitar,

**they were all Co-op students.**

Co-op students go on to big things. In fact, even a short list of our high-achieving alumni would fill this magazine. Because in Cooperative Education, college students combine their classwork with life-changing, financially rewarding work experiences. They graduate with impressive resumés (not to mention job offers), a well-polished sense of professionalism, and up to \$40,000 in their pockets.

**Here's another reason to talk to your son or daughter about Co-op.** The National Co-op Scholarship Program is awarding \$3.5 million in merit scholarships to qualifying high school seniors and community college transfers. For details, visit [www.co-op.edu](http://www.co-op.edu).

You'll find some of the nation's best Co-op programs at these leading universities:
