

## **THE 2006 SCHLEMBACH AWARD WINNER - 09/08/2006**

Dr. Brian W. Randolph, Professor and Associate Dean of Undergraduate Studies, was presented with the 2006 Robert Schlembach Award on Friday, September 8, 2006 at the Annual H.S. Guidance counselors breakfast. The breakfast and the award announcement took place at the Toledo Hilton on the Health Science Campus at the University of Toledo.

The Dr. Robert J. Schlembach Award is presented annually to the individual, who works outside the Division of Enrollment Services, who gives unselfishly of their time to assist the Division of Enrollment Services staff, to promote The University of Toledo, and through whose loyalty, dedication, and outstanding service to the university, serves as a model for others to follow.

His nominators had this to say about him:

Dr. Brian Randolph has been a tremendous help to both the Direct from High School as well as the Adult, Transfer, International Admission Offices by giving his time, input, and support to various recruitment initiatives. Last year Dr. Randolph served on the Recruitment Coordinating Council, the Transfer Strategic Planning Committee, and the (Rocket Launch/Rocket Transitions) Orientation Committee. His quick and positive response to issues involving engineering students models the student-centered approach we all hope to achieve at UT.
