you will be invoiced for the cost of the luncheon.*

Please join us in welcoming Tom Tingle of HNTB Architecture, Inc. as he presents “Lucas County’s Green Arena”. Tom will discuss the latest design concepts for the new arena which include sustainable design features, new urbanism concepts, and fan friendly amenities. Kansas City based HNTB Architecture, Inc. is working with Toledo based *The Collaborative* and *Poggemeyer Design Group* to design one of the first Green Arenas in the United States.

Tom is the National Director of Sports Architecture for Kansas City based HNTB Architecture, Inc. As a Vice President in the firm he leads a staff of over 50 architects in the design of sports facilities all over the country. Tom’s 25 years of experience include working on such projects as the Charlotte Bobcats Arena, Petco Park in San Diego, the Orange Bowl renovation in Miami, and the Los Angeles Memorial Coliseum. He also has worked on a number of smaller stadiums, arenas, and ballparks most notably the Toledo Mud Hens Fifth Third Field.

As a guest speaker, Tom has lectured on the subject of sports architecture to such groups as International Economic Development Council, International City Managers Association, Bond Buyer Council, Society of American Baseball Research, several colleges and universities, and a number of local chapters of the American Institute of Architects.

Tom is very active in his community including such organizations as his church, the Chamber of Commerce, the Boy Scouts of America, and children’s athletics. He graduated from the University of Kansas with a Bachelor of Environmental Design and a Bachelor of Architecture. He and Patti, his wife and best friend, have four children ranging in ages from 15 to 22.
