There are no make-up exams for this course. If you have a problem or conflict and cannot attend an exam, let me know beforehand and we will try to work something out. No credit will be given for a missed exam that we haven't made arrangements about beforehand unless you have a *really excusable* emergency. Cell phone use will not be allowed. If you do not have a calculator, buy one and bring it to class.

Cheating is not allowed and will be punished by rules of U of Toledo Student Handbook.

Subject: RSLogix500 free tutorial link

The technote the tutorial says to go to isn't there when you search for it but if you click "downloads" and then "view all downloads" and then "find drivers and firmware" you will be at the product search page the technote would bring you to.
